Jeff Hasty

Professor, Department of Bioengineering, UC San Diego

Education

1992–1997 **Ph.D. Physics**, *Georgia Institute of Technology*, Research Area: Statistical Physics, Advisor: Kurt Wiesenfeld.

Academic Appointments

2010–present **Professor**, *Department of Bioengineering*, UC San Diego.
2010–present **Professor**, *Molecular Biology Section*, UC San Diego.
2010–present **Director**, *San Diego Center for Systems Biology*, UC San Diego.
2009–present **Director**, *BioCircuits Institute*, UC San Diego.
2009–2010 **Associate Professor**, *Molecular Biology Section*, UC San Diego.
2006–2010 **Associate Professor**, *Department of Bioengineering*, UC San Diego.
2002–2006 **Assistant Professor**, *Department of Bioengineering*, UC San Diego.
2001–2002 **Research Assistant Professor**, *Department of Bioengineering*, Boston University.
1998–2001 **Postdoc with Jim Collins**, *Department of Bioengineering*, Boston University.

Private Sector Interests:

2016–present **Founder**, *GenCirq, Inc*, Sorrento Valley, CA.

2010–present **Founder**, *Quantitative BioSciences*, Sorrento Valley, CA.

Research

Development of a quantitative framework for engineering cellular behavior
Synchronization of cellular behavior over macroscopic length scales
Engineering of genetic clocks as centralized time keepers within cells
Characterization of cellular signaling in the presence of a dynamically changing environment
Development of technologies for precisely regulating the cellular environment
Directed evolution of genetic circuits

9500 Gilman Drive – La Jolla, CA 92093-0349 – USA
+1 (760) 429 4816 • hasty@ucsd.edu • biodynamics.ucsd.edu

Broad Scientific Interests

Transitioning synthetic biology towards diagnostics and therapeutics for cancer
Systems engineering of water treatment for the generation of feedstock, energy and clean water
Development of biosensors for continuous monitoring of industrial processes
Transforming education for the next generation of biologists
Integration of new technologies into K6 science education
